

## Singular focus. Limitless passion.

MIPRO has been guided since 2005 by a strong and enduring passion for three things: employing and inspiring the best people in the business, the success of our clients, and PeopleSoft.

It is a passion that conditions our every pursuit, fueling one persistent and consistent motivation: to do the right thing.

Our focus? The PeopleSoft suite of products. While others aspire to be all things to all people, we are passionate about being all things to all PeopleSoft.

### PeopleSoft: It's in our very DNA

With a lineage that traces back to the very early days of PeopleSoft itself, in many ways MIPRO Consulting was born from PeopleSoft. We love it; we live it; we breathe it every day. Our history with the product and our familiarity with its origins translate to a deep understanding of PeopleSoft at its core. We continue to maintain a unique relationship with Oracle's product development team, serving as a true partner to Oracle's innovation and product development efforts.

### Providing the industry's best resources

MIPRO has earned a reputation for integrity, honesty, and for always "doing the right thing." Repeatedly recognized as a *101 Best Companies to Work for* and as a *Crain's Cool Places to Work* has enabled us to attract and retain top talent for our customers.

MIPRO brings the most qualified people in the industry to optimize, upgrade, implement, and support the PeopleSoft suite. We are experts with PeopleSoft ERP - Financials, Supply Chain Management and Human Capital Management. MIPRO is unique in having a dedication to PeopleSoft, not attempting to provide answers for every technology solution in existence.

### Thought leadership, commitment, and expertise

Today we see organizations extracting more and more value from their PeopleSoft applications. This is made possible by Oracle's continued investment in PeopleSoft.

MIPRO's services:

**PUM Updates to PeopleSoft 9.2:** The majority of the PeopleSoft community is on 9.2, and they continue to reap functionality and technology benefits of the newest Oracle-delivered PUM releases with our help.

**Optimize Current Modules:** With a proven approach and methodology, we are helping organizations get significantly more out of the modules they already own.

#### Take Advantage of Productivity Enhancements:

We are enabling organizations to eliminate customizations with new, delivered features like Picaso, Work Centers, Activity Guides and Dashboards.

**Managed Support Services:** We are providing flexible, short- and long-term managed services options for organizations with delivered PeopleSoft support that can be onshore, offshore or both.

We are passionate about providing real, honest observations and feedback. Over the years that has led to long lasting, trusted relationships and we are humbled by our customers ongoing support and loyalty.

## In Our Customers Words
