Campus Community	A new processing option has been added to SFP Integration Setup to support different Holiday Schedules by Academic Career. Users can now choose to have a single, institution level holiday calendar or assign a calendar for each academic career. The Student Leave of Absence message (STLA) handler PeopleCode was updated to read the new setup option. This update also includes a change to the way CS Holidays are reported in the STLA message. For examples, replication steps, and more details, see the CS 9.2 PI30 ReadMe file.	CS 9.2 Update Image 30
Campus Community	Updated the Pop-Update feature to make these new fields available for update: 1. SFA_ENRL_INTENSITY (Enrollment Intensity Percent) field in the STDNT_FA_TERM record. 2. HOUSING_TYPE, SFA_FGN_MATCH_OVRD, and SFA_YTH_MATCH_OVRD fields in the STDNT_AID_ATRBT record.	CS 9.2 Update Image 31
Campus Community	Added the Enrollment Intensity field to Financial Aid Summary page in Student Center when the page is rendered for Aid Year 2025 onwards.	CS 9.2 Update Image 31
Campus Community	Revised some CS queries to not use query records whose query security record is PERALL_SEC_QRY.	CS 9.2 Update Image 31
Campus Community	Updated the CS-SFP Interface Java file for AY 2025 "sa_sfa_calculatorClient version - v6.0 - 06/Mar/2024"	CS 9.2 Update Image 32
Campus Community	With this update, customers can choose to generate a Packaging Start Date event message when the integration generates a first SAFI for a student and for every subsequent SAFI with a new SFP Program Code. For example, if a student is admitted to Undergraduate Program1 for Fall 2024, a Packaging Start Date message referencing that program (e.g. PSUNV-0001) is generated with the first SAFI. If the student completes that program and starts Program 2 in Fall 2026, a Packaging Start Date message referencing that program (PSUNV-0002) will be generated along with the first SAFI generated for the new program. Steps to enable this feature: Navigate to Menu > Campus Community > Student Fin Planning Interface > SFP Integration Setup. Select the "Post for Initial SAFI" under Student Academic and Financial Information - Post Packaging Start Date. Run SCC_VOC_INTF process for Message Class 'Student Academic and Fin info'.	CS 9.2 Update Image 32
Campus Community	This update delivers changes to the CS/SFP Integration Load Reporting Data feature in response to the CAA implemented for the 2024-2025 Aid Year. This regulatory change required a major update to the ISIR layout, including an increase in the total number of fields to 947 from a total of 672 for 2023-2024. The SFP Reporting Data process will load ISIR data into a new set of ISIR Reporting Tables. The new tables re-use CS Financial Aid fields, but the new structure will have its own key structure distinct from existing CS FA. This approach supports this significant regulatory update, preserves existing, pre-2024-2025 data structures for prior aid years and delivers better alignment, ease of development and maintainability. See KM Doc ID 2117001.2 on My Oracle Support for more details.	CS 9.2 Update Image 33
Campus Community	1. Created a new Entity named SfpFpoV2Efc (Entity ID SCC_ENTITY_20240429180311), and added it as a child of SfpFpoV2AwardYear (Entity ID SCC_ENTITY_20200318092442). 2. Created entity SfpFpoV2Sai (Entity ID SCC_ENTITY_20240429195620) and supporting App Class. Added SfpFpoV2Sai as a child of SfpFpoV2AwardYear entity. 3. Updated the program to use the new Entities. 4. Updated SCC_SFP_EFC field to allow negative value. See KM Doc ID 2117001.2 on My Oracle Support for more details.	CS 9.2 Update Image 33
Campus Community	CS Integration for Oracle Student Aid Eligibility has been updated in response to the Consolidated Appropriations Act regulations implemented for the 2024-2025 Aid Year.
