

## Singular focus. Limitless passion.

Since our beginning in 2005, MIPRO has been guided by a strong and enduring passion for three things: the success of our clients, employing and inspiring the best people in the business, and the Oracle suite of applications.

Customer success breeds trust, and our customers trust MIPRO with expanding their Oracle capabilities and beyond by providing industry-leading talent and solutions for Oracle implementations and upgrades, staff augmentation, managed services, and emerging technologies like AI and automation.

### It's in our very DNA

With a lineage that traces back to the very early days of PeopleSoft itself, in many ways MIPRO Consulting was born from PeopleSoft. We love it; we live it; we breathe it every day. Our history with the product and our familiarity with its origins translate to a deep understanding of PeopleSoft and extends to other Oracle offerings. We continue to maintain a unique relationship with Oracle's product leadership team, serving as a true partner to Oracle's innovation and product development efforts.

### Providing the best talent and technology

MIPRO has earned a reputation for integrity, honesty, and always "doing the right thing." Repeatedly being recognized by Oracle, and awarded the PeopleSoft Innovation Partners Badge since the program's inception in 2023, enables us to attract and retain top talent for our customers. As part of the Kastech Software Solutions Group family of companies, MIPRO brings decades of hands-on experience to organizations seeking to accelerate and modernize their process automation initiatives. Leveraging technologies such as Artificial Intelligence, Machine Learning, Robotic Process Automation, and SmartOCR enables us to help clients streamline operations and unlock new levels of efficiency around their PeopleSoft applications and beyond.

### Thought leadership, commitment, and expertise

Today, we see organizations extracting more value from their Oracle applications. MIPRO is built to support that journey. We complement Oracle's continued investment with:

#### PeopleSoft and Oracle Cloud Optimize Services

With a proven approach and methodology for optimization, we help organizations get significantly more out of the PeopleSoft/Cloud Financials, HCM, and Campus Solutions modules they already own.

#### Supplemental Solutions

Enhance your PeopleSoft and Oracle Cloud applications with AI-based automation extensions for Payables, Receivables, Expense Management, Transcript Articulation, and more.

#### Managed Services and Workforce Augmentation

We provide flexible, short- and long-term managed services options for organizations with PeopleSoft and Oracle Cloud applications through onshore, near-shore, offshore, or hybrid team structures.

#### Oracle Cloud Infrastructure and Applications

We can assist institutions transition their legacy applications to the cloud by implementing Oracle Cloud applications or migrating them to run on Oracle Cloud Infrastructure instead of their own hardware.

## MIPRO AT-A-GLANCE

- ✓ Limitless passion for client success, world-class talent, and PeopleSoft & Oracle Cloud applications
- ✓ Unrelenting drive to do the right thing
- ✓ Trusted for IT staffing capabilities
- ✓ Enabling process automation with technologies such as AI, Machine Learning, Robotic Process Automation, SmartOCR, and more
- ✓ Highly regarded for workplace culture, enabling the attraction and retention of top talent

## Do the Right Thing

Whatever your challenge, you can count on MIPRO to do the right thing. We are passionate about providing honest observations and feedback. Over the years, that has led to long-lasting, trusted relationships, and we are humbled by our customers' ongoing support and loyalty.

Our passion for employing and inspiring the best people in the business, for ensuring our clients' success, and for the Oracle suite of products conditions our every pursuit.
